

## The Chipmunk Chatter For March/April 2009

Spring is FINALLY on it's way! It is so exciting to see the snow melting and feel the outside temperatures rising. In anticipation of spring, Chipmunk Cove has been stocked with great spring and summer designs.

We have been working on finding new and unique designers to pur-

chase items from in an effort to provide you with a wide variety of items.

If you have a favorite designer that we have little or no products from, please let me know.

Finally, enjoy the many items introduced in this newsletter and on our website.

## Highlighted Products

For March and April we are highlighting products from Sudberry House. Sudberry House has offered stitchers a wide variety of quality finishing products for many years. Whether you want to finish your stitching as an insert in a jewelry box or as a design on the top of a Nantucket

basket, you are sure to find a Sudberry House item that strikes your fancy.

Through the end of April all items in the Sudberry House finishing category are priced 15% off! This includes special orders and instock items.

This is a great opportunity to stitch coasters, bookends, display boxes, music boxes and more for year end gifts.

To learn more about Sudberry House, visit their website at

## Introducing Fly Tying Supplies From Kreinik

You are all probably familiar with Kreinik's blending filament, cord, braids, and other fibers. But did you know that Kreinik manufactures fly tying supplies as well?

In addition to carrying all your favorite stitching fibers from Kreinik, we have also stocked up on Fly Tying Supplies for you or the man in your life.

Some of these new items include:

- **Flash in a Tube** - Fine-fiber synthetic material which exhibits a metallic-like gleam. Its' reflective properties add sparkle to the tails and wings of many types of flies. The hair-like fibers are soft and static free, making it easy to work with. Kreinik Flash is unaffected by saltwater or epoxy finishes, yet is flexible enough to be mixed with marabou, enhancing its action in the water.
- **Micro Ice Chenille** - A light-reflecting, crystal-type chenille. It is one-half the size of regular ice chenille and can be used as a body wrap on small hooks.

Micro Ice Chenille is not affected by saltwater or epoxy finishes. It is ideal for use in saltwater patterns such as shrimps or Crazy Charlies. In freshwater flies, Micro Ice Chenille has many applications, such as forming Woolly Bugger bodies and nymph thoraxes on stoneflies.

- **Silk Dubbing** - Natural 100% pure silk. The fibers of the silk dubbing are very fine and long.
- **Fly Tying Kit** - Contains several types of thread as well as other fly tying items
- **Gingher Fly Tying Scissors** - Same great quality as Gingher's embroidery and sewing scissors.

In addition to great fly tying materials, we also have a special page dedicated to fly tying materials which also includes links to some great fly patterns.

Please let your fishing friends know about this new addition to our shop.

## Receive a "Thank you" for Referrals

The Chipmunk Chatter is put out monthly by Chipmunk Cove. This print newsletter is similar to the e-newsletter on our website; however, it does have additional information and photos of some of the charts you can find on our site.

If you would like to receive your own copy of the Chipmunk Chatter monthly, please email or call us to be added to the mailing list. We also place the Chatter in various locations around Cadillac, MI. If you know of a stitcher who would like to receive this publication, please have them contact us to be added to the subscribers list.

If you refer someone to Chipmunk Cove and they make a purchase or sign up for our e-newsletter or print newsletter, we will send you a special gift as our "Thank you".

Just make sure that they tell us who referred them, and that we have your email or mailing information.
